Why the School Ma'am thrashed Him.

The following is a sample of a Friday afternoon composition which Adam Biglier wrote when a boy at school. We may add that Adam Biglier was soundly thrashed for it: "A school ma'm is a verb because she denotes action when you throw paper wads at the girls. Switch is a conjunction and is used to connect the verb school ma'am to the noun boy. This is a compound sentence of which boy is the subject and swich the object. First person, plural number, hellish case. A school ma'am wears her hair all banged on the forehead. She puts DL paint on her face and has some big beefturkeycranberrysaucepotatoes feller come and take her home. Ma says a school ma'am never gets older than eighteen until she gets mar-

a day to cook dinner."
